To Whom it May Concern

Testimonial for Website Design Services of Bizlinks Developments Ltd

I am delighted to volunteer this testimonial for services recently received.

With a need for a new website, online research led me to David Levin of Bizlinks Developments Ltd. Before contacting David I reviewed his previous design work which was available to view on his website. I found a wide variety of design styles, all of which appeared to me smart and fit for their respective purposes.

What I would get for my money was clearly spelled out on the home page. Services were comprehensive; from helping me to conceptualize my sites' look through to its design, including any necessary iterations, and then submission to over 60 search engines. For a reasonable monthly fee, domain name registration, site hosting and ongoing needs such as minor changes and website statistics would be available.

I contacted David for the first time with an air of skepticism simply because the price did not seem to equate to the depth and breadth of services provided. My previous website had cost me more than ten times the Bizlinks rate to develop five years earlier, and the monthly fee payable to my former service provider included only two of the five post-development services provided by Bizlinks.

My website is now fully developed and in operation. Numerous service providers in my national and international networks have volunteered praise for its smart look and for its functionality.

Throughout the process of working with David I found him uncommonly prompt, responsive, proactive, reliable and communicative. He also spoke to me in a language I could understand, rather than confusing me with jargon that I am unfamiliar with.

For all the above reasons I unequivocally recommend David Levin and Bizlinks Developments Ltd to anyone in need of excellent website design and support at what surely must be the best rates in the market. I would be happy to affirm or expand on my comments by telephone or email at the contact addresses following.
